### POPPY DAY

Poignant reminder of those spacious days of glory and grieving, "Poppy Day" once more recurs to prompt the citizens of this country in the duties they have inherited from the past generation. To Canada youth in this year of grace, the deep red petals of the Poppy may not carry the same significance they bore to the youth of seventeen years ago. The symbolism of sacrifice with which the Poppy has become charged is something to which the present generation succeeds only through the wistful memories of the aging men who fought their country's battles, who suffered privations, endured long agonies and finally triumphed amid surroundings carpeted with Poppies.

To wear this humble emblem in Poppy Day is to proclaim that amid all the jangling confusion through which this country is striving valiantly to penetrate, the heart and mind are nevertheless attuned to a sense of homage due those men whose patriotism inspired 600,000 Can-

adians to offer themselves for service between 1914 and 1918; of that number more than 60,000 found graves in France and Belgium. And it is over those graves that the Poppy blows in perennial bloom.

The numbered dead were not strangers. They were young Canadians, filled even as the youth of today is filled, with the joy of living. So, also, were the 170,000 men who in 1935 bear upon their bodies the marks and scars of war—the disabled ex-service men who suffered disablement on behalf of Canada.

To manifest that proud recognition of their place in this Country, to mark that tribute which is their due, Poppy Day has been set aside in order that all may join in recalling the Great Sorrow.

The blood-red emblems distributed throughout Canada by the Canadian Legion's vast volunteer organization are the product of disabled veterans, men striving to maintain themselves in the Veterans Shops, administered by the Dominion Government. To purchase a Poppy is a small thing. For every citizen to do so is a big thing.

Let us all wear a Poppy on Poppy Day.

### KEEP A RECORD OF BANK NOTES

For the second time in less than two months the Retlaw Post Office was broken into Monday night, the safe taken about a mile and a half from the town and blown open and

150 in cash and \$90 worth of stamps taken.

There has been quite a series of burglaries throughout Southern Alberta during the past few months, and in the majority of cases the police have had very slim clues to work on. In one case where a large amount of money had been taken, the pay master had taken the forethought to make a record of the serial numbers of the Bank Notes, and when police commenced working on the case they had this information to go on, and while trying to pass some of the marked bills, one of the thieves was caught and the biggest part of the money recovered. Police are recommending all those who make a practice of carrying large quantities of bank notes to keep a record of them. We may never have a burglary, and then again we might, and these serial numbers in case of trouble would be a great assistance in apprehending wrong doers.

The suggestion is also made that storekeepers might do well to have a watch dog to keep an eye on their places of business at night and then very little trouble would result, as there are very few who will undertake a burglarizing job while a watch dog is setting up a continuous howl. As a matter of safety these ideas might be thought over. Their adoption may save trouble.

Mr. and Mrs. H. W. Law and family of Wrentham visited in Raymond on Sunday with Mr. and Mrs. J. F. Judd and family.

## Recorder Ads. Always Pay

Mr. and Mrs. L. L. Palmer are moving into their home east of J. O. Hicken's home the end of this week.

Donald A. Wilson, 57, of Calgary was almost instantly killed when he fell 40 feet from the crane he was operating in the Canadian Pacific Angus shops, and lit on his head.

Quarterly Conference will be held Saturday evening and Sunday, November 9th and 10. It is a priesthood Convention Conference and a good program is outlined. The first meeting will be at 7:30 p.m. Saturday evening, and visitors are expected to be present from Salt Lake City.

## THE NEW FORD V-8 FOR 1936

Why do we say The New Ford V-8 for 1936?

What is new about it?

Of course, the newest engine in the low-price car field is still the V-8 engine. Since Ford made it available to all car users (keeping it as economical as cars with fewer cylinders) the Ford V-8 has been the newest engine on the market, and remains the newest for 1936.

You may buy a car on minor "talking points"—some specially advertised feature "with the car thrown in"—but, after all, it is the engine you buy when you buy a car. Hence we put the engine first.

Other new points about the car make a long list.

Its lines are much more beautiful. The hood is longer and sweeps forward over the distinctive new radiator grille, giving the car a length and grace that are instantly impressive. The fenders are larger, with a wide flare. Horns are concealed behind circular grilles beneath the headlamps. New steel wheels.

Ford upholstery—always of sterling quality and excellent taste—is rich and enduring. The appointments of the car have a new touch of refinement. There

is no question about the increased beauty of the Ford V-8 for 1936.

In more practical matters, many improvements have been made—Steering is made easier by a new steering gear ratio. The cooling system circulates 4½ gallons of water through a new, larger radiator. Natural thermosiphon action is assisted by two centrifugal water pumps. New style hood louvers permit a rapid air-flow around the engine.

Easier, quieter shifting of Ford gears—The gear shift lever now travels a shorter distance.

The two qualities you want in brakes—Brakes that stop the car with ease and certainty. Ford Super-Safety Brakes of the long-tested, fool-proof, mechanical design.

Safety—as always—in the electrically welded genuine steel body. Safety Glass all around at no extra cost. Hundreds have written grateful letters because this glass has protected the safety of their families.

A car you can drive without strain all day, if you like, in city or country. Steady, holds the road, responds to the

driver's touch like a well-trained horse. You don't have to "push" or "fight" the Ford V-8—driver and car easily get on terms of good understanding with each other.

An engine has much to do with the roominess of a car. Very much indeed. A long engine uses up car space. The compact V-8 engine permits much of the ordinary engine space to be used by passengers.

It really is a great car in every way, this 1936 Ford V-8—the finest, safest, most dependable Ford car ever built. Get complete details at your nearest Ford dealer.

### LOW FORD V-8 PRICES

TEN BODY TYPES—Coupe (5 windows), \$665. Tudor Sedan, \$675. Fordor Sedan, \$755. DELUXE—Roadster (with rumble seat), \$725. Coupe (3 windows), \$725. Coupe (5 windows), \$710. Phaeton, \$735. Cabriolet (with rumble seat), \$815. Tudor Touring Sedan (with built-in trunk), \$750. Fordor Touring Sedan (with built-in trunk), \$830.

F. O. B. Windsor, Ontario. Bumpers, spare tire and taxes extra. All Ford V-8 body types have Safety Glass throughout at no additional cost. Convenient, economical terms.

## PARENTS

Give your Child  
this Advantage

SOMETHING every parent of a growing child should know—a survey of 10,000 school children has proved that a typewriter, used for homework, improves general school work enormously. Spelling, reading and composition are especially bettered. Why deny your child this help, when it costs so little?

Not only your children, but you, and all your family, will enjoy using the Remington Portable Typewriter at home.

## WEEKLY LETTER

## FALL WORK ON

## THE FARM

In the period before freeze up work on the farm divides itself into those things that have to be done and those things we would like to do.

A walk around the Station these days finds the foreman very anxious to get all ploughing done on irrigated land, and it is very noticeable that moisture received recently has put the land in good condition for this work. Those irrigated fields which are likely to drift are being ridged. Every advantage is being taken of the favourable soil conditions to get all this work done as soon as possible.

Repairing of fences, corrals and buildings is a pleasant job while the weather keeps fair, but there is nothing more uncomfortable than hammering nails when the weather is cold and there is snow on the ground. Colony houses for hogs are being cleaned and banked with straw, and a general clean up is in progress around the buildings.

The poultryman is busy cleaning up his houses. After shovelling out old litter he scrubs the walls and floor with a solution of lye; one can to a gallon of cold water. An old broom is used for this purpose since this lye wash must not come in contact with the hands or face. The roosts are painted with nicotine

sulphate about 15 minutes before dark. When the birds go to roost the heat from their bodies causes fumes to develop from the nicotine sulphate, and these fumes are deadly to any lice which might be present on the birds. Care is taken to see that all birds are on the roosts. Clean birds in a clean house is the first requisite for egg production.

It may be well to suggest that while the past summer's work is still fresh in mind, a note be made of any needed repairs to implements. That hay wire which served in a pinch might let you down in a hurry when the rush of spring work comes. The important working parts of each implement should be carefully inspected for necessary replacements.

Don't forget to attend the Corn and Seed Fair at Lethbridge on November 8th and 9th, and if you have any promising material you have time to clean it up and compete with your neighbours.

## HEALTH

## EARACHE

When we read Caesar, we learn that, in his time, all Gaul was divided into three parts. If we read anatomy we learn that the ear is divided into three parts; between the outer canal and the inner ear, behind the eardrum, is the middle ear.

The middle ear is a cavity which has its only connection with the outside world through a narrow canal called the Eustachian tube, which runs from the middle ear to the back of the throat.

There is no pain which is more distressing than earache. Earache is usually due to an inflammation of the middle ear. Any inflammation of the nose or throat, such as a common cold, may spread up the Eustachian tube to the middle ear.

Where there is inflammation there is swelling, so the mucous membrane which lines the middle ear and the Eustachian tube swells and, at the same time secretes an excessive amount of mucus as a result of the inflammation.

Following this, there is an increase of pressure in the middle ear because the Eustachian tube is partially or completely blocked and so cannot drain or ventilate the middle ear. Pressure causes pain and this particular pain is earache.

To prevent earache, the nose and throat must be kept healthy. Diseased tonsils and adenoids are often responsible for earache. Children need to be protected against colds and if a cold does occur, notwithstanding precautions, proper care is required to prevent the spread of infection. Earaches are danger signals because inflammation of the middle ear may lead to deafness which is serious enough, much more serious, however, in its immediate danger is the possibility of a spread of the infection back to the mastoid.

Every earache should have prompt medical attention. Do not put anything into the ear. Very often it will be necessary for the doctor to lance the eardrum and if this is done at the proper time, no permanent harm results. Lancing relieves pressure and so renders less likely the spread of infection to the mastoid. The eardrum which is left to burst of itself may be permanently damaged.

Many children suffer from repeated earaches for which nothing is done. Many a child is allowed to go with running ears untreated. Too often earache and running ears are apt to be considered as of no real importance. There remains the old idea that children grow out of such complaints. This is an unfortunate error which has caused many a child a serious handicap of deafness which would have been prevented by prompt proper treatment.

Questions concerning health, addressed to the Canadian Medical Association, 184 College St. Toronto, will be answered personally by letter.

The stormy weather has caused a halt on all the building that was going on in the town. Several homes stand partly finished, and not covered in enough yet to carry on work during the storms.

**REWARD AT LAST**  
 THE EDITOR GETS HIS  
 JUST REWARD  
 Editors are usually said to be  
 a melancholy sort, convinced  
 that nobody loves them and  
 that their work and worry are  
 all wasted effort in the world.  
 So we, editorially speaking re-  
 joiced to read the following in  
 a recent issue of "Light."  
 Editors who may have shared  
 the common feeling of their  
 clan, that no one loves the ed-  
 itor, can be assured now that  
 that feeling is just so much  
 nonsense. We have been in-  
 formed how an editor was re-  
 cently presented with a hand-  
 some bouquet of flowers by a  
 group of his fellow-citizens. On  
 that occasion a quartette sang  
 a few songs, and a clergyman  
 gave a little talk. After the  
 talk six husky men carried the  
 editor on their shoulders, and  
 placed him in a 1935 sedan, and  
 the whole town formed a par-  
 ade. The appreciative crowd  
 returned to homes serene in the  
 thought of having provided one  
 bright day for their beloved  
 news purveyor.  
 P.S.—We forgot to mention  
 that the editor was dead.—Es-  
 tavan Mercury.

**Winter Wear**  
 Is Needed Now

 We Like To Serve You. Call In  
**The Broadway Store**

**NEWS NOTES**  
 The cold has made a heavy  
 run on coal dealers, and several  
 of them have been out between  
 trains during the past week.  
 Heavy firing has been essential  
 both night and day.  
 A test plane crashed on a  
 hill top six miles from Cheyenne  
 Wyoming, Wednesday, killing  
 the persons who were in it. A  
 gasoline tank exploded when  
 the huge plane hit the hill side.

**NEWS NOTES**  
 Donation Night Thursday—  
**\$40.00 Free** and May Robson in  
**"STRANGERS ALL."** Also a  
 Charlie Chase comedy.  
 A U.S. passenger plane out of  
 Helena, Mont. lost its way and  
 forced down in a rocky  
 field near Nelson, B.C. No one  
 was injured in the forced land-  
 ing.  
 "I Like It That Way" with  
 Roger Pryor will amuse you at  
 the same time it tugs at your  
 heart strings. See it at the Cap-  
 itol Monday. Also Cut Crystal  
 for the Ladies.  
 Mayor Andy Davison of Cal-  
 gary will run again for Mayor  
 of that city and according to  
 reports will be opposed by Fred  
 J. White Labor, and W. R. Her-  
 bert on the Social Credit ticket.  
 S. B. Smith has been busy  
 during his evenings for the past  
 week or so decorating the inter-  
 ior of L.L. Palmer's home which  
 "Les" hopes to move into with-  
 in the next few days.  
 James G. Gardiner Premier of  
 Saskatchewan, has decided to  
 quit Provincial politics and en-  
 ter the Cabinet of Premier  
 King as Minister of Agriculture.  
 This now makes the Liber-  
 al cabinet complete and ready  
 for business.  
 President H. S. Allen occu-  
 pied the time of the Second  
 Ward Sacrament meeting last  
 Sunday evening, and gave a  
 very interesting report on the  
 recent Conference in Salt Lake  
 City. There was a large attend-  
 ance at the meeting.

**"JUST A FEW OF THE KICKS"**  
 Getting out this paper is no  
 picnic.  
 If we print jokes people say  
 we are silly.  
 If we don't they say we are  
 too serious.  
 If we clip things from other  
 publications, we are too lazy to  
 write them ourselves.  
 If we don't we are stuck on  
 our own stuff.  
 If we stick to the job all day  
 we ought to be out hunting for  
 news.  
 If we do go out and try to  
 hustle, we ought to be on the  
 job in the office.  
 If we don't get contributions  
 we don't appreciate true genius  
 if we print them, the paper is  
 filled with junk.  
 If we make a change in the  
 other fellows' write-up, we are  
 too critical.  
 If we don't we are asleep.  
 Now, like as not, some guy  
 will say we swiped this from  
 some other publication.  
**WE DID**  
 The new Provincial Govern-  
 ment is at work now on the re-  
 vision of liquor prices following  
 its decision to place a luxury tax  
 on all these drinks.  
 A few of the ardent boxing  
 fans journeyed to Lethbridge  
 Monday night to attend the  
 bouts in the Majestic Theatre.  
 The blizzard kept quite a num-  
 ber from attending.  
 Similar research work has  
 been carried out in Canada,  
 where the studies have been un-  
 dertaken by the salt industry.  
 Alberta has extensive salt  
 deposits, particularly in the  
 Fort McMurray field. Drilling  
 in past years confirmed the be-  
 lief that salt beds of great thick-  
 ness exist there.  
 As the new provincial gov-  
 ernment in this province is  
 pledged to development of the  
 natural resources, the means of  
 utilizing these northern salt de-  
 posits for highway surfacing  
 purposes should be thoroughly  
 investigated.  
 Alberta needs better high-  
 ways just as badly as it re-  
 quires industrial expansion. Here  
 is an opportunity for the gov-  
 ernment to make a "double  
 play" that will have wide-read  
 benefits.—Voice of Motordom.
